NOTE: This data reflects the numbers of research-active tenured and tenure-track faculty with at least a 50% appointment in the department most closely identified as chemistry. Institutions were identified by the National Science Foundation as having spent the most on chemistry research in fiscal year 2010. For schools whose NSF ranking is based on multiple campuses, faculty numbers are for campus listed in parentheses.

^a Rank is based on including the Applied Physics Laboratory

^b Declined to participate

^c Did not reply to requests for information
